REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, none of the references, either singularly or in combination, teach or suggest to a person of ordinary skill in the art at the time of the invention the combination of features of: (1) receiving user data in a first hypertext document; (2) saving the recently entered user data via a save command; (3) dynamically creating a new hypertext document containing said user entered data; (4) dynamically displaying a message to save the new document; (5) and wherein said dynamically created new hypertext document contained a script function that only becomes active when the document was loaded to perform a restoration function. The Examiner notes that while local data persistence is not itself considered a novel feature (See Examiner Referenced Prior Art), but in light of the combination of certain features (e.g. local saving the user data to the newly created document and then dynamically prompting to locally save the newly created document) of the method steps of the independent claim the

limitations of claim 1 are considered novel, and unobvious to a person of ordinary skill in the art at the time the invention was made in view of the prior art of record.

In regard to independent claims 6 and 9, the examiner notes that said claims are considered substantially similar to independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
